

# Non-JIRA Events

Non-JIRA events can be added to the calendar which can be seen only in a particular calendar. Select one day or period you need and select "New event":

The event will be added to the current calendar and it has a limited number of parameters:

1. Name. You can change it after the creation.
2. Background and text color.
3. Schedule.

# New event

Name

Lunch

Color

Text Color

Schedule

Weekly

Ends on

2020/05/27

Close

Once you've created an event you can change its name, color, and end date, however, it is impossible to reschedule already created events. You have to delete wrong one and create a new one.

The screenshot displays a calendar interface with a weekly view for March 2-6, 2020. A modal window for editing a 'Team lunch' event is open, showing fields for Name, Color (red), Text Color (white), Start Event Date (March 02, 2020 2:00 PM Weekly), and Ends on (Date) (2020/03/05). The right sidebar lists 'Unplanned Issues' with assignees and IDs.
