

Calendar for Jira Cloud Home

What is Calendar for JIRA?

- **Calendar for JIRA Cloud** helps you plan personal activities, team tasks, vacations and business trips within JIRA Cloud.
- Create personal, team or project Calendar to plan specific activities and share it with your colleagues.
- To plan issue just click in the specific days or hours or place existing issues there.

Why should you use Calendar for JIRA?

- Calendar lets you view issues in the **Month, Week, Day, List, and Timeline**.
- Any user can create an unlimited number of calendars.
- You can create calendars for different cases: planning a specific project or product, employee, group of employees or the special issue types (such as a vacation or a business trip, or marketing activities).
- Also, you can add to your calendar **Quick Filters** to temporarily hiding them from the calendar.
- You can add **new or existing issues** to the calendar.
