Managing Contacts

- Contacts Dictionary
- Contact Card
- Contacts Related with the Company

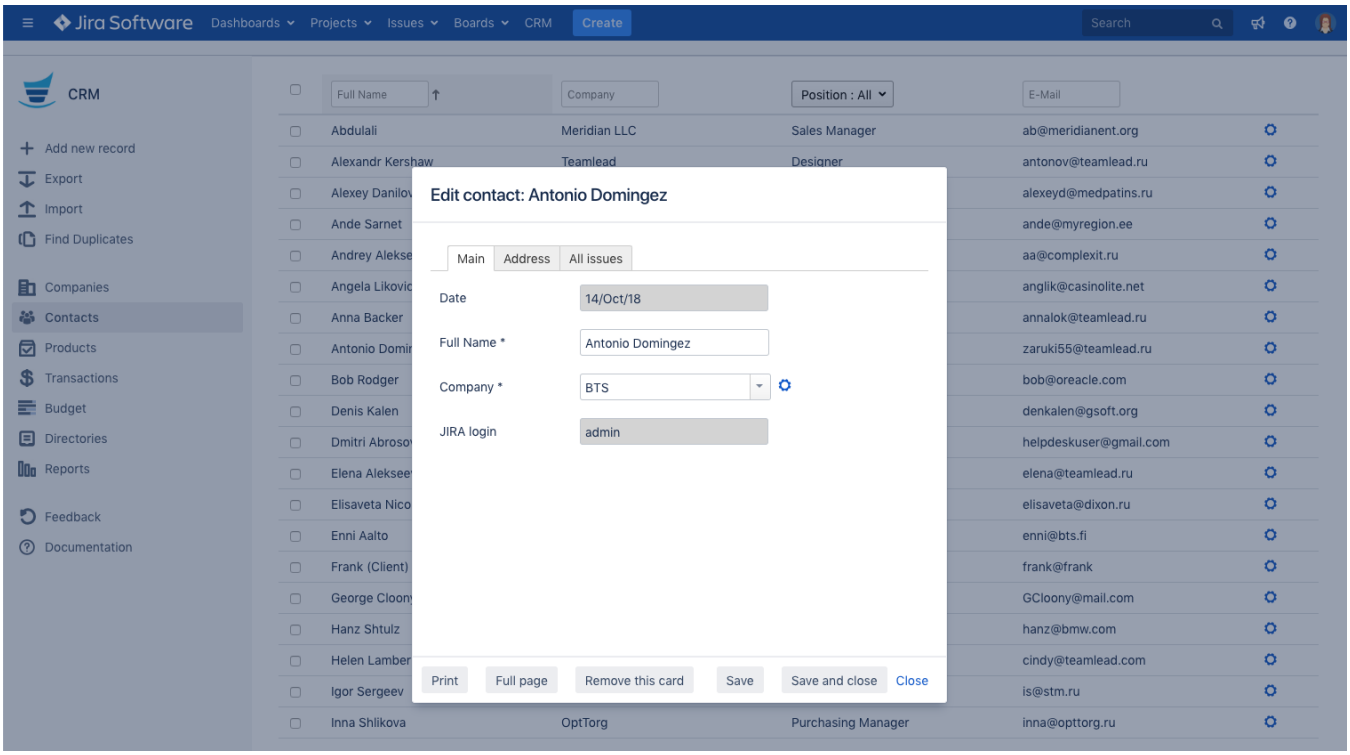

After installing plugin you will see new **Contacts Dictionary** in JIRA. This dictionary relates to **Companies Dictionary**. This means that contact can be added to company. **Contact Card** attributes can be configured by JIRA administrator as needed.

💡 In the **Contacts Dictionary** settings you can turn on synchronization with **JIRA Users Dictionary**. It will allow automatic determination of company when creating JIRA issue.
