	心 Like Be the first to like this		No labels /
	Write a comment		
	Write a comment		

The user types in email address and presses 'Subscribe' button. On this email notification with confirmation link will be send.

If contact with this email doesn't exist in your CRM new contact will be created with 'No subscribe me' checkbox enabled.

After Subscription Confirmation by user, confirmation message appears:

You subscription is successfully confirmed!	

And newly created contact in CRM changes 'no subscribe me' status to disabled. If the contact already presents in your CRM Contacts directory, this contact as well will be added to your mailing list by un-checking the checkbox 'no subscribe me'.
