

Setting Up Issue Custom Fields

CRM adds to JIRA several usefull custom fields:

- [Custom field - CRM Company](#)
- [Custom field - CRM Contact](#)
- [Custom field - CRM Property](#)
- [Custom field - Contacts CRM](#)
- [Custom field - CRM Products & Services](#)
- [Custom field - CRM Custom Dictionary](#)
- [Custom field - CRM Select Custom Field](#)
- [Custom Field - Issue Picker](#)
- [Custom field - CRM Transactions](#)
- [Custom Field - CRM Companies Select](#)
- [Company/Contact issue fields format](#)
- [Custom Field - CRM Products Select / CRM Single Product Select](#)

To add the desired field just select its type, name, project and issue type where you want it to be displayed.
