

Non-JIRA Events

 Only server versions

Non-JIRA events can be added to calendar which can be seen only in calendar where they were created.

Select one day or period you need and select "New non-JIRA event":

The screenshot shows the JIRA web interface with the calendar view for November 2016. A modal dialog titled "What is planned?" is open in the center. The dialog has four buttons: "New issue", "Existing issue", "New non-JIRA event" (which is highlighted with a red border), and "Cancel". The background calendar shows several events, including "SUP-170 14:00 - 15:00 Search Issues through HelpD" on Tuesday, "SUP-129 00:00 - 23:59 I'd like to see thumbnails in" on Tuesday, "SUP-172 11:00 - 15:00 Install HelpDesk for JIRA" on Monday, "SUP-261 10:00 - 19:00 Migration issues" on Monday, and "SUP-254 10:00 - 19:00 Training for JIRA Software Users" on Wednesday.

Enter the name of event:
