

Reset all settings to default

In the setting of the CRM (**Administration/Add-ons/CRM/Reset Data**) has 3 buttons:

1. **Delete all records and reset settings to default:** all your settings and records will be removed. And the initial settings.
2. **Delete all records:** delete all records of the following directories: Companies, Contacts, Products, Transactions. The directories that you have created, records will be saved.
3. **Reset CRM Cache:** CRM has a data cache for fast searching. It is used in transactions and exports. The button is needed to restore the cache if it has collapsed.

The screenshot displays the JIRA Administration interface. At the top, there's a header with 'Administration' and a search bar. Below this is a navigation bar with links to 'Applications', 'Projects', 'Issues', 'Add-ons', 'User management', 'Latest upgrade report', 'System', and 'CRM'. The 'CRM' link is currently selected. On the left side, there's a sidebar menu under 'CRM ADMINISTRATION' with various options. The 'Reset Data' option at the bottom of this menu is highlighted with a red rectangular box. The main content area on the right is also highlighted with a red rectangular box. It features a title 'Delete all records and reset settings to default' followed by three buttons: 'Delete all records and reset settings to default', 'Delete all records', and 'Reset CRM Cache'.
