

Reminder for Jira 1.2.4 Home

Add-on allows you to set your own reminders to any JIRA issue you want. Reminder is the e-mail sent to user who created reminder in the issue.

To create new reminder enter the issue and click on 'Reminder' button:

The screenshot shows the Jira interface with a 'Create a reminder' dialog box open. The dialog box has a title bar 'Create a reminder' and two main sections: 'When' and 'Message'. The 'When' section has a text input field containing '4/Apr/17 08:00 PM' and a calendar icon. The 'Message' section has a text input field containing 'Don't forget to contact Anton|'. Below the message field is a small text label 'A short optional reminder message'. At the bottom right of the dialog box are two buttons: 'Add' and 'Close'. In the background, the Jira issue page is visible, showing the 'Assign to me' section with the email 'jiratst@yandex.ru' and two buttons: 'Vote for this issue' and 'Start watching this issue'. Below this is a timestamp '26/Dec/16 5:24 PM' and the word 'Yesterday'. At the bottom of the screenshot, there is a section titled 'My reminders' with a red arrow pointing to it. This section contains a row of buttons: 'Reminder', 'Tonight', 'Tomorrow', 'In a week', and 'In month'. Below these buttons is the text 'Upcoming reminders: No reminders'.

Select a date and time, the message is optional.

You can use 'Tonight', 'Tomorrow', 'In a week', 'In month' to create quick reminders without messages.

'In a week' adds 7 days to current date and time, 'In month' adds 1 month, the time stays the same as current moment.

'Tonight' and 'Tomorrow' time are configured in Reminders Settings menu under your avatar (Morning time for tomorrow and Evening time for tonight):
