☒

View Name in Issue Tab :

☐

Choose issue user to show details :

Assignee

Hide Calendar tab in Issue:

☐

Allow non-jira events:

☒

User groups with ability to see calendars:

jira-administrators x

Save

You can see the Teamlead Calendar for JIRA documentation [here](#)

Calendar Tab in Issue

Here you can configure calendar's view in issues

Show month	Calendar month view *.
Show week	Calendar week view *.
Show day	Calendar day view *.
View Avatar in Issue Tab	Displays the user's avatar on the issues for any calendar view.

<i>View Name in Issue Tab</i>	Displays the user's full name on the issues for any calendar view.
<i>Choose issue user to show details</i>	Choose reporter's or assignee's avatar to be shown by default in calendars.
<i>Hide Calendar tab in Issue</i>	Hides calendar's tab in issue.
<i>Allow non-JIRA events</i>	Turn on/off usage of non-JIRA events in all calendars.
<i>User groups with ability to see calendars</i>	Select groups which will have access to Calendar page.

* This configure works to display the calendar in the project, issue and calendar interface. You can set as default any view.

And calendar's administration of new event menu:

Allow non-jira events - when checked, the users can create non-JIRA events in Calendar. When unchecked - only JIRA issues can be added or created.
