

# CRM 1.9.8

## Release Summary

Support Jira 7.10.x

## New Features

- Added new [Custom Company Directory](#). You can create separate directories for Customers, Partners, Suppliers or what you want.
- Now you can [save unique search query as as filter](#) inside Company Directory.
- [New User Picker customfield](#). You can choose Jira users by Job Title or other CRM attributes.

## Improvements

- Increased the performance for directories opening. Now you can store millions companies and open them in a moment in the directory.
- Added the one useful API call - **updateOrCreateEntity**. Look at this for details [CRM API](#).
- Export to Excel report by Products
- Support Jira 7.10.x

## Fixed Bugs

- We've fixed more 30 bugs, so we hope our add-on would be more stable from this point.

## Issues
