Post-function's parameters

Issue reporter as comment author checkbox enabled makes issue reporter the author of issue changes after customer satisfaction is added. The users (reporters) should have edit issue permission.

Comment author is a user picker field to select a jira-user who will be set as an author of changes made in issue after customer satisfaction is added. The user should have edit issue permission.

Sender is User picker field where you can select jira-user who's name will be displayed in Sender e-mail field (From). If no user is selected, e-mail will be sent from 'Robot Inspector'. Anyway sender's e-mail will be as set in System/ Outgoing mail.

Scheme. Select a customer's satisfaction scheme from dropdown list of schemes created in HelpDesk administration / [Customer Satisfaction](#)

How to edit email's Scheme

To adjust a **Scheme** you just need to Go to HelpDesk Administration menu/ Customer Satisfaction and click **Parameters** button next to the created scheme.

Message about already rated issue

Спасибо, вы сделали этот мир лучше.

Message about already rated issue (EN)

Thanks, you've just made this world better.
