

Quick start

On tabs of the create/edit screen you can tune in your calendar.

1

Main

- 1. Calendar name.
- 2. Output data: based on the project, favorites filters or JQL-query.
- 3. Background color of issues.
- 4. Start Date Custom field and End Date Custom Field here you can chose existing date or date time custom fields. You can set different date custom fields for each calendar.
